#### 10 STEPS YOU CAN TAKE TODAY

## Want to step up your marketing game? Here are 10 steps that can move you closer to your goals – today.

Focus on fixing obvious issues on my website before testing changes, such as broken links and bad site architecture. Take care of the low-hanging fruit issues first to build my foundation.
Utilize AI tools like ChatGPT to generate ideas to improve my SEO and marketing content. Test all ideas before I fully implement them.
Avoid distractions from my business fundamentals and utilize the latest AI tools. Leverage AI to amplify the core of my business. Use AI to improve how I deliver value, communicate with my audience, and promote my services.
Hire an experienced SEO expert who can optimize my content, wrangle developers, diagnose site issues, design tests, and optimize complex funnels.
Highlight my industry experience, credentials, history, services delivered, case studies, and credibility to improve my website quality.
Beware of Al misinformation. Avoid using Al as my only source of content creation. Al-generated content may contain inaccuracies and misinformation.
Test Al-generated suggestions. Whether Al or human consultants provide advice, testing is crucial. Ensure that my Al-generated suggestions are validated before I implement changes.
Develop my AI skills to future-proof my career. Recognize that AI is the future. My business must integrate AI or risk being left behind.
Adapt to algorithm changes. Monitor my ranking fluctuations and adjust my strategies as needed.
